Operator Expertise. The opposite of operator error. When an organization must deliver on its promises, people make the difference. Repeat

business is a product of skilled technicians doing their jobs right, the first time.

The success of Schaefer Technologies stems from the skills of our people. Since our first day, we

have focused on maintaining a team that's ready to respond.

Expertise that starts with training. Skills polished by experience. Together, time and talent are manifest in the heads and hands of master craftsmen. Every

task that passes through the doors of Schaefer Technologies benefits from the decades of experience compiled by our people. It's a pool of knowledge we draw upon daily. For over six decades, we've said there's never time to do the job over - but there's always time to do the job right ... when you have the people to get the job done.

SCHAEFER
TECHNOLOGIES, INC.

Schaefer Technologies Inc.

Schaefer Technologies, Inc. is multi-dimensional international manufacturer. We are a 75 year old family owned business spanning three generations. With the expansion to our new 60,000 square foot facility, we are now poised for the future.

Our most powerful tool? Commitment. The team and technology, brought together in a single entity. Combining these resources empowers Schaefer Technologies to deliver on our promises. It's a corporate philosophy that has built one of today's American success stories.
